Thank you.

WE ARE FIRST IN THE AIR AND  
FIRST ON THE GROUND  
BECAUSE EVERY LIFE MATTERS

*It's a fact*

**natural catastrophes are  
on the rise but also  
getting more intense.**

When a disaster occurs, the delivery of relief  
supplies is often delayed and inadequate.

When it comes to saving as many lives as  
possible, every minute counts and therefore,  
help for helpers is urgently needed in the field  
of fast long haul transportation.

Our vision is to  
make sure that  
coordinated  
emergency aid  
arrives on the  
spot in less than  
24 hours  
worldwide.

*In 2015 over 1,000 catastrophes and \$90 billion damage were caused by earthquakes, flooding, storms, drought etc. In 2017 the damages costs \$330 billion already.*

*Up to 50% of all humans have less than \$2 per day to survive. No food nor drinking water, worse living conditions, no safe roof over their heads and no education.*

*Every 5 seconds someone's eyes go blind and 75% of all blindness could be avoided. One main reason for this is the result of untreated diabetes disease.*

*Diabetes, Tuberculosis, Malaria and other diseases are on the rise again. 2.1 billion humans have no access to clean drinking water and more than 800 million people go to bed hungry.*

## How we help

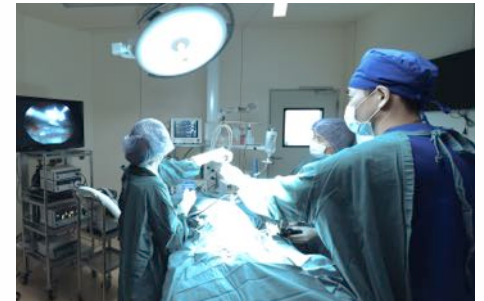

### Disaster Relief

- warehouse at the airport
- ready to take off within 3 hours
- 100 tons of coordinated emergency aid in less than 24 hours worldwide
- transport of volunteers, medical professionals and rescue teams

### Mobile Hospital

- fully equipped field hospital in tents and containers
- eye, heart and other surgeries
- transport of hospital equipment and medicine in large quantities

### Development Aid

- transport of construction materials, agricultural goods, food, medical supplies, etc.
- construction of houses, drinking fountains, pipe systems, etc.
- supporting all 17 sustainable development goals from the UN

### Together with our partners...

- we multiply the effect of the aid locally
- resources can be re-invested for a better impact
- education and further training
- stimulating local industry, generating win-win, B2B / B2C situations
